**D&E PRICE**  
**\$140,000+GST**

**BASE PRICE ONLY WITH  
FACTORY QUIK-TATCH HITCH**

**Finance options available**

Incorporating many of the same durability and reliability features found on our larger machines, the G-Series skid steers are as tough as they come. Uptime advantages such as rugged Yanmar engines, in-boom hydraulic lines and wiring, large coolers, and extended service intervals help keep downtime down. Plus, a standard automatic shutdown system prevents overheating or low fluids from ruining more than just your day. When you know how they're built, you'll see what they can do.

Pictures are samples only and may show attachments not included in the base price. Prices current as at 01/11/23 and subject to change without notice.  
^ Conditions apply. 4 year/4000 hours Powertrain (whichever comes first). See your local branch for more information.
